

Computer Lab

Headphones

Student Name _____

This year every student will be issued a new pair of headphones to be used in the computer lab and/or classroom at school.

At the beginning of the year students will be instructed on the proper way to take care of their headphones so that they will last longer.

If your child ruins the pair of headphones they are given in such a way that makes them unable to be used, you as his/her parent/guardian will be responsible to provide your child with another pair of headphones.

A new pair of headphones can be purchased from the school for \$6.00 or you can provide a pair from elsewhere and send them to school. Please note that if you choose to send a replacement pair of headphones they are to remain at the school and not be taken back and forth from school to home.

If they are taken care of properly this pair of headphones can last your child through his/her time at Castle Dale Elementary.

I understand that if my child ruins the pair of headphones they have received I am responsible to provide another pair.
